

Equipment List for Backcountry Day Tours - 1 day

Throughout the winter season, a full range of conditions and temperatures can be expected in the mountains. Due to variable nature of conditions, clients need to be suitably prepared. Your guide will do a comprehensive gear check at your pre-trip meeting. Our day tours access the backcountry using ski field access roads. You will need to carry your personal gear and may be asked to assist in carrying some small items of group equipment.

Below is a checklist of required equipment. Further detail is available in the equipment detail information accessed from the backcountry day tours pages on www.aspiringguides.com. If you have any questions about the equipment list, please be sure to contact us at action@aspiringguides.com.
